PURCHASE FINANCING PROGRAM

Funding is readily available to buy goods, inventory or services

Bank credit line maxed out and credit is strong, yet not eligible for an increase? Well there's good news, Liquid Capital Express offers an easy to obtain, unique Purchase Financing Program. It allows businesses to buy goods/ services for inventory or consumption – finished or unfinished. B2B and B2C companies can qualify. Suppliers can be domestic or international.

This financing program is well received by banks as there is no effect on existing bank credit lines; it is incremental. Liquid Capital Express takes a second position UCC so there is no disturbance of existing bank or other lender security. Banks and businesses retain, and ultimately expand their banking relationship when the business grows to that credit line increase.

BENEFITS ACHIEVED
