

Liquid Capital Express New Asset-Based Lending Program Complements Financing Suite

Provides businesses with more borrowing power at lower rates to improve working capital

BRIELLE, N.J. – Liquid Capital Express, LLC a non-bank commercial financing company launches an Asset-Based Lending (ABL) program to meet businesses growing needs to have more financing options. Now companies can leverage the assets in their business to increase cash flow in addition to other financing currently being utilized. By offering such robust lending programs as factoring, purchase order, trade credit, leasing and others for international and domestic transactions Liquid Capital Express helps provide businesses with real opportunity for growth.

The ABL facility provides business funding secured by several different business asset classes. The line of credit can be used to finance short term assets (such as accounts receivable and inventory) and long term assets (machinery, equipment, and real estate). For many companies, ABL substantially expands their potential borrowing base and is designed for companies requiring credit lines of \$1 million and greater.

“Liquid Capital Express’s asset-based lending solution provides a fast, cost-effective financing choice,” stated Michael Banasiak, owner and managing director of Liquid Capital Express. “ABL is one of the most flexible, option-rich financing alternative available offering low rates and is customized to meet each client’s working capital needs.”

Whether a business wants to take advantage of supplier discounts, launch a new product, expand, manage seasonal demand or simply needs cash to manage, Liquid Capital Express has diverse financing options readily available. Decision turnaround is quick and it’s easy to get approved. When a business chooses Liquid Capital Express, they are choosing a partner that will work closely with them providing guidance and personalized, responsive service. Work directly with the business owners.
